A MARRIAGE AFTER THREE MINUTES' COURTSHIP—CHICAGO AHEAD OF THE WORLD.

The Chicago *Republican*, of S ptember 13th, says: Many are the stories that have been told of rapid courtships, whereby two hearts have been brought to a realization of love in but a few hours' time; improbable tales, too, have been related of queer matches, constituted by that eccentric little god, Cupid, and were it not that "truth is stranger than fiction," the most credulous could scarcely believe them. Chicago boasts now of "the best time on record," in the matrimonial line, the foundation for which is a strange and almost inconceivably short courtship and marriage. There are though romances in real life more astonishing than the pen of the novelist has ever depicted. The end of romances in general is marriage, which is said to be the beginning of true happiness in life, but idealism does not always end when married life begins, as is exemplified in this story.

There came over from Germany several months ago, a young girl, like Jeptha's daughter, "passing fair," accompanied by a man named Frederick Herrmann. The impecuniosity of the latter caused the purse of the former to suffer somewhat, as she paid his fare. He was to marry her, but failed to do so, and on August 26th she instituted suit against him for the recovery of the money. The case came before Justice Schoenewald, but there was a sad termination to it. Hermann dropped down dead in the saloon below the office of the Justice, No. 145 Randolph street, just as he was about to be arraigned for final examination. The Coroner's jury rendered a verdict that he died from mental excitement. Now, the mention of the case in the daily press attracted the attention of a lone widower in Aurora, Ill., who saw an opportunity to once more enjoy the bliss of wedded life. Mary Fesser, the German lassie alluded to, became the star of his fancy. He would win her though the heavens fall. Bereft of worldly aid, as he thought she was, he could secure her with little trouble.

Chicago was overflowing with sight-seers from the fair village of Aurora, on Wednesday last, and among the number was Charles Dietrich, independent farmer, etc., the matrimonially inclined personage in question. He cared not for the tall spires, the oriental structures of marble, nor for the thousand attractions of the city; he was led on to his unseen inamorata by an impulse of his heart, and he could go in no other direction. Justice Schoenewald was visited by him yesterday, and to his hurried questions about the little German girl for whom he was searching, the stern man of the law could return only a crushing answer, and that was that Mary Fesser was married. Necessity is the mother of invention, and Mr. Dietrich resolved not to be balked by the advent of so trivial an adversity, so he eagerly inquired as to the chances left for obtaining a wife. The Justice kindly aided him in his strange purpose, and went below into the saloon, where he had a brief conversation with a comely girl employed as a servant. He stated to her the whole affair, and she acquiesced. The man and the willing lass met in the office of the Justice up stairs, a few moments later, and after a courtship of but three or four minutes, were married. The name of the young lady is now Mrs. Dietrich, *nee* Hilda Neering. But the story has not reached a finale. The bridegroom is about 45 years of age, rather prepossessing, and is well-to-do in the world's goods. Many years ago he married his first wife, who went the way of all flesh. His second was given to the flowing bowl so excessively, and to castigating her husband so fearfully that the latter obtained a divorce. The twice made widower is now in his glory, having, as he says, an affectionate better half, a counterpart of his first love of long ago. The happy couple spent the night at a hotel, and will to-day leave for the blooming town of Aurora.

THE model of a steam flying machine is on exhibition in New York. The theory of it is, that when placed on a railroad track or inclined plane, at a certain velocity, it will raise in the air, and can be propelled in any direction. The steam apparatus resembles the tail of a bird, and the whole ship as described is like the tale of a visionary.

SAVING A MAN FROM FITS.—A mad wag played a pretty sharp game on one of our druggests yesterday. He went into the drug store, dropped into a chair, and began to exhibit certain alarming symptoms that are known to attend the variety of fits known as "Whisky fits."

"What is the matter?" inquired the druggist.

"I feel—I feel that I am going—going to have a—a fit," he feebly stammered.

"A fit,?

"Yes, if I don't have some—some brandy, I'm going to have a fit."

The idea of a man having a whisky fit in his store was perfectly horrifying to the druggist, and he made haste to get some of his best brandy, of which the fit-threatened individual drank liberally and immediately he said he felt better.

"Don't you think you can go?" inquired the druggist, who was very anxious to have him get as far as the next drug store at least

"Yes—I think so—I'll try, anyhow'" and he started to go, but, as he reached the door he dropped idto a chair again and exclaimed:

"Oh, dear, I feel it comming on again—brandy, I say—brandy."

Again the druggist poured out a big horn wrth trembling eagernessand gave it to the man, who visibly improved as soon as he had poured it dowd.

"Thanks," said the joker, "you have saved me this time. I will see you soon again."

"Not if I can help it," muttered the druggist, as he saw him disappear.

Teh joke leaked out and the druggist, as a consequence, don't like any allusion to fits.—*Cin. Times.*

"BURLEIGH" writes from the city of New York to the Boston *Journal*: "Leaning against one of the granite pillars of one of the hotels yesterday, I saw a well-dressed young man, not over thirty: he was drunk. His friends, some of them among our most respectable citizens were trying to induce him to go home. Not lost to all self-respect he said, 'I'm drunk—I won't go home.' Two months ago he was reputed to be rich. His balance over in the bank was large. He could any day draw his check for fifty thousand dollars. One of the sudden blows that upset the staunchest craft struck him, he took to the bottle and his end is easily predicted. One can count on his ten fingers the New York business men who for thirty years have had uninterrupted success. But New York is full of wrecks of men who because they could not pay their notes, have flung away character, talent and all. In one of the tenement houses in this city dwells a woman, one who, since I have been your correspondent, was a belle at Saratoga. Her story is the old one—business reverses, the bottle, poverty and woe. On the floor of one of the most crowded tenement houses covered with rags, the husband of this lady was found by a noble-hearted man who sought him out to save him if he can. And yet a few years ago he was one of the brightest merchants."

SENTENCED.—A telegraphic dispatch from Monterey, of the 10th instant, states that Judge McKee, of the Third District Court, sentenced Obispo Ace and Juan *alias* Antonio Valenzuela, to be hanged on the 21st of November next—the former for the murder of a colored man at Pilarcitos, and the latter for the murder of Frank Johnson at Natividad.

THE old maids of Jamestown, New York, formed a sewing league recently, made up four hundred garments and shipped them to the destitute children of New York. When the boxes were unpacked, the garments were classified as follows: For girls, 399; for boys, 1. Jamestown is shocked at the solitary and diminutive pair of p—tl—ns, and its curious to learn which of the maiden ladies was immodest enough to know how to make them

Copy of the Report of the Committee of Awards a the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST Premium! Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets,

TO 108 MONTGOMERY STREET, Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

A CARD FROM THE

AMERICAN WATCH COMPANY,

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

ATTEMPTED SUICIDE.—Last night, says the Virginia *Trezpass* of the 12th instant, a man named Wm. Warren, who has been a workingman in Gold Hill for a number of years, and was formerly in the employ of C. H. Van Gorder, walked into a faro room, and drawing a $20 piece from his pocket, proceeded to bet the same, remarking that that was the last of $1,600 lost within a few months, and that if he lost that $20 he would kill himself. He played and lost.—Then deliberately walking from the room into the street, he drew a five-shooter, put it to his breast and discharged it. The ball entered his breast, ranged to the right, crushed a portion of the breast bone in its passage, and lodged under his arm. Dr. Webber was called immediately, cut the bullet out, and rendered such other aid as the case demanded. In its passage, the bullet was flattened. The surgeon informs us that it is possible for Warren to recover, but that his wound is a very serious one. Warren is a native of Pennsylvania, 33 years of age, and no cause, except his pecuniary losses, is assigned for the rash act he committed.

CAPSIZED.—On Friday last, the passenger wagon owned and driven by Tommy Morris, capsized on the road between this place and Little York. The wagon was loaded with women and children, none of whom were much injured. The driver and the wagon were the worst sufferers. This is the third upset, besides two or three runaways, this season. Tommy should drive less fractious horses.

THE BALL—to come off at Gold Run on the 22d instant, promises to bo an immense success. Tickets of invitation have been issued, and extensive preparations made to make it one of the finest affairs of the kind ever held in this portion of the county. The Grass Valley Band has been engaged for the occasion, which is a sufficient guarantee that the music will be all that can be desired. The floor will be placed in the best possible condition, and, in fact, Mr. Jewell will spare no pains to give those who attend a night of unalloyed pleasure.

RED BLUFF INDEPENDENT.—The *Independent* of the 9th contains the valedictory of T. B. Merry, the editor, who retires, and is succeeded by Charles D. Woodman. The retiring editor and proprietor complains of a lack of patronage, an affliction too common to newspapers, and from which we sincerely hope the new proprietor may be spared.

A DEVIL FISH.—One of those monsters of the deep so well described by Victor Hugo in his "Toilers of the Sea," was caught near San Francisco the other day.

ROBBERY.—The Nevada *Gazette* of the 12th inst. says: "Ed. Kent, while on his way home from Washington on Thursday evening, was stopped by two foot-pads this side of the Six Mile House, and robbed of sixteen dollars. The highwaymen had their faces partially concealed by handkerchiefs, and one of them stepping out from the side of the road, and presenting a pistol, told Kent to stop and deliver up his money. Kent took his purse from his pocket, containing sixteen dollars, and handed it over. He had fifty dollars in addition, concealed on his person, but the robbers did not search him.

SHOOTING ACCIDENT.—Benjamin Myers was very seriously injured at Red Dog, on Thursday last, by the bursting of a gun. He was shooting at a target when the breech-pin was blown out, shattering the gun stock, and the powder badly burning his face. One of his eyes was also seriously injured, and it was feared that the sight was destroyed. Yesterday morning the unfortunate man was quite comfortable, and doing as well as could be expected.

GRAND LODGE OF MASONS—ELECTION OF OFFICERS.—The Grand Lodge of Masons elected the following as its officers for the ensuing year: William H. Davies, of Columbia, Grand Master; H. H. Hartly, of Sacramento, (re-elected), Deputy Grand Master; Thomas Beck, of Watsonville, Senior Grand Warden; L. E. Pratt, of Sierra, Junior Grand Warden; James Laidley of San Francisco, (re-elected) Grand Treasurer; Alex. G. Able, of San Francisco, (re-elected) Grand Secretary.

THE ELECTION TO-DAY.

Our judicial election takes place to-day, and we confidently hope that the people will, as they go to the polls, resolve in their minds to vote, regardless of *political* preferment, for the *best men*, judging them by their known ability to fulfill the duties of the office to which they aspire, their moral standing and their integrity of purpose.—John Currey is again before the people for their endorsement of his record as one of our Supreme Judges, and for re-election to that very important position. He has been weighed in the balance and never found wanting. He is second to no man on the Pacific coast as a learned jurist; as an able and impartial judge he has served the people of California to the entire satisfaction of all, and his legal opinions and decisions compare favorably with those of the best courts of the Nation. In his private as well as his public life he is a man of whom Californians may speak with pride. His opponent, Royal T. Sprague, may be a noted lawyer, but his reputation as such, if indeed he ever had any such reputation, has never extended beyond the boundaries of his own county. He may be eminently qualified to succeed Judge Currey, but we are satisfied that his labors have too long been confined to the Justices' and County Courts of his own county to fill the bench of the highest judicial tribunal of our commonwealth with that ability which will add weight and lustre to its decisions or draw forth encomiums from the best legal talent of the State. If Sprague is elected to-day, we are confident that not only the entire bar, but the people of the entire State will have cause to regret the choice. Sprague is, and ever has been, a party politician, and a third-rate one at that; has never made himself prominent except when seeking a nomination at the hands of a Democratic Convention. We therefore urge the voters of old Placer to roll up a large majority for John Currey, the ablest Judge upon the bench.

The defeat of Judge Currey, however, could by no possibility entail upon the State such a calamity as the defeat of John Swett by O. P. Fitzgerald. Swett is the right man in the right place, as every intelligent man in the State, free from sectarian prejudice, knows, and must, to himself at least, admit. He has raised our common school system from confusion worse confounded, brought order out of demoralization, and placed our common schools upon a par with the best conducted school systems of the older States. Nothing but extreme madness can induce the people to-day to elect Fitzgerald as the successor of Swett. If the election of Superintendent of Public Instruction were confined to the parents of the children to be educated, we are sanguine that Swett would be elected four to one over his opponent. Every father should, before he votes, decide for himself whether he favors the entire sweeping away of our present efficient and admirable system of education, and dividing the School Fund among the sectarian religious denominations, allowing them to use the people's money for the purpose of teaching and educating our children out of sectarian books the peculiar dogmas of each denomination. Such is the known purpose of the Rev. O. P. Fitzgerald and his political admirers, with Zach. Montgomery at their head. It is a daring attempt at innovation, and directly antagonistic to our whole system of civil government. We call upon every voter to put upon it this day the seal of their condemnation by voting for John Swett, and all will then be well.

BUTTE COUNTY.—The *Record* of October 12th has these items:

Charles Olsen, one of the pioneer residents of Butte county, met with a severe accident on Saturday last, while driving his loaded team down the canyon to Bidwell Bar. The wagon ran into a chuck-hole throwing him from his seat forward to the earth, where the animals trod upon him and the wheels of the wagon passed over him. Two of his ribs were broken by the wheels of the wagon, and he was otherwise bruised by the animals treading upon him. We learn that he is doing well, however, and is in a fair way to recover. Thus left to themselves, the team overturned the wagon and made a general wreck of things.

On Saturday evening last W. P. Leonard brought into town two very fine pieces of timber, cut at his mill, near Dogtown. They are each sixty feet six inches in length five inches in width on one side and about nine inches on the other. They are beautiful and clear pieces, and are intended for the gunwales of a new ferry-boat.

FOR THE EAST.—Judge Field, of the United States Circuit Court for California, etc., will leave for Washington on the steamer of the 20th, to be present at the next term of the Supreme Court. Senator Conness will sail for Washington at the same time.

CHICO FAIR.—John Bidwell made the following exhibit at the Chico Fair: Seventeen varieties of pears, 25 of apples, 12 of grapes, 5 of dried fruit, 3 of wheat, 3 of almonds; sample of English walnuts, squashes, corn, sack of flour, and two varieties of vinegar and three of butter. General Bidwell is making vinegar of his grapes.—*Union.*

He has been at that ever since you got after him on the 12th June.

HORRIBLE REPORT.—Two soldiers appeared ar the San Francisco Station House on Thursday evening last, and made the following statement: There is a private soldier at the Presidio whose sister is a woman of the town, residing on Pike street, and she is well known to many of the soldiers stationed at the post. On Sunday last, several private soldiers were walking near Lone Mountain, when they saw a woman whom they supposed to be the one above referred to. One of them, named Bender, belonging to Light Company M. Second U. S. Artillery, accosted the woman, and made a propposition to her which would have been perfectly proper had he not been mistaken in the person. As it was however, the woman proved to be a servant employed in the family of Major Ramsay. When Bender saw his mistake, he was as much embarrassed as the woman herself, and apologized. It seems that the girl informed the Major of the circumstances and, night before last, our informants state, the Major, accompanied by four or five non-commissioned officers and as many privates, took Bender down to the new wharf below the Presidio, and flogged him, since which he has not been seen. It is said the guard heard him cry out "Oh, don't murder me!" and heard the Major say, "you ——— I will kill you!" Since the occurrence blood has been seen upon the wharf, and fragments of artillery whips. Six of his comrades who were out on passes yesterday, searched the city for him without success, and Sergeant Dowd, who was one of the flogging party has been heard to say that Bender would never be seen again on the Pacific Coast. While the two men were relatihg these circumstances to our reporter, last night, they appeared to be sober, earnest and truthful, the matter calls for an examination from the military authorities at the Presidio. Major Platt, this afternoon, since the above was written—has furnished the following information to Chief Crowley: The man Bender was flogged as above stated; but the offence he committed was an assault to commit rape. Major Ramsey is under arrest and will be tried by Court Martial for his high-handed act. Major Platt also states that Bendr has been seen in the city to-day.—*Times.*

THE Nevada *Gazette* of the 14th instant has the following:

A HEROIC WOMAN.—One of the most remarkable exhibitions of a mother's daring and presence of mind that we have heard of for a long time, took place at the village of Washington one day last week. The circumstances are as follows: Mrs. F. T Marker was crossing the Yuba on a foot bridge, near Rocky Bar, with two of her children. One of them, a babe, she carried in her arms, and the other, a little girl of about four summers, with a small basket in her hand, followed close behind her. When about half-way across the bridge the little girl dropped her basket into the water, and in the excitement of the moment, lost her balance and fell into the foaming waters beneath. With remarkable presence of mind the mother ran with her infant across the bridge and laid it down on the bank. She then hastened down to the water to recover her child which was being whirled down stream by the rapid current. Fearlessly she plunged in, and although the water was over her head, she succeeded in saving her offspring from a watery grave. It is quite probable that the rapidity of the current may have aided her somewhat in bringing her child to a shallow spot in the river where she could touch bottom and reach the shore. Such heroism is worthy of note.

BURGLARY.—The office of Wells, Fargo & Co at San Juan, Monterey county, was entered by burglars and robbed of $1,700, one night last week. The robbers have not been captured.

CHEATING THE PACIFIC RAILROAD COMPANY.—E. H Saxe, the Assistant Superintendent of the Pacific Railroad Company, was arrested at an early hour yesterday morning on a charge of cheating, preferred against him by the officers of the Company. Saxe took the place of Hartwell on the road some five or six months ago, and seems to have attended to the duties of the office in a satisfactory manner until within a day or two, when the fact was discovered that he had been carrying on for several months a system of swindling by which the Company had been cheated out of a considerable sum of money. Assistant Superintendent Saxe has had control of a large number of hands on the road. The accounts of these men are audited by him and they are furnished with certificates or orders for their wages, which they present to the Treasurer and receive their pay. The plan of operations seems to have been to give the men orders for more than was due them, and have them return to him in cash the balance overdrawn. This the men have been induced to do on several different pretexts. In one instance Saxe said: "I have made an error in your account by crediting you with too many days work. Draw the entire amount and return the difference to me as I can correct the error with the Company better in that way than by altering my books." In another case he said: "You missed —— days during the month and I put a man in your place and paid him out of my own pocket. The amount is included in this account. Draw the whole sum and hand me back the amount I paid out." In another case the proposition was: "You lost —— days last month, but I forgot to deduct the time. Draw the whole and return the amount to me which is paid for lost time." In this manner it is believed that somewhere from $1,000 to $3,000 have been obtained from the Company in a fraudulent way. On Friday last the attention of the Directors of the Company was called to the subject by Kerchival and McKnight, two of the employes, whose suspicions had been aroused by the movements of Saxe. On Saturday evening a warrant was sworn out by E. H. Miller, Secretary, which was placed in the hands of special officer Biderman and officer Chamberlin. They were unable to find Saxe during the evening, but at about two o'clock yesterday morning special officer Isaac arrested him when he came to the depot, where he had a lodging-room.—*Union of the 14th.*

TEHAMA COUNTY.—The Red Bluff *Independent* of October 9th, chronicles these items:

A heavy shower of rain fell last Sunday afternoon and lasted till about daylight on Sunday morning. It not only laid the dust but made the roads very muddy. It is feared that the dry feed in the stubble fields is nearly destroyed, and cattle will suffer unless the volunteer crop comes up speedily.

J. Granville Doll, who has been spending the Summer in the Coast Range, returned to town on Monday, looking as fine as a four-year-old. He killed seventy-eight deer, nine bears and an elk during the season.

AN OFFER.—S. T. Thomson, of Smartsville, has a notice in the Marysville *Appeal* to the effect that he thinks $2,400 a year a much greater sum than the people of Yuba ought to pay for the services rendered by the Judge of the County, and he agrees, in case the people elect him County Judge, that he will give one thousand dollars for each year of the judicial term for the purpose of building a free road from Marysville to Smartsville. As for the rest, let the liberal gentleman tell his own story:

My platform is: "Thou shalt not take the people's money without valuable consideration; and he who does so, violates the Eighth Commandment."

If you like the platform and the proposition, you can ratify the contract. But if you expect me to *button-hole you*, or any one of you, or do any other *dirty* work, you are greatly mistaken in the attributes of your Independent Candidate for County Judge.

CHOLERA!

MR. PERRY DAVIS:—Sir: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen you a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœ, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from an attack of the Sick Headache, by using two teaspoonsful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Traveling amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily pre-disposed to dyssentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or, at the most half a day. I have heard of many cases of Dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to a. persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

FOR GIRLS WHO "CHEW GUM."—A great many American girls have acquired the particularly disagreable habit of chewing gum. Perhaps they would like to know how the gum is made:

The greatest gum manufacturing establishment is said to be at Podunk, Massachusetts; and the fame of their gum (and the gum itself) is in the mouth of all the world. One of the employees of that establishment, who has become thoroughly initiated into the mysteries of the manufacture of the gum, was recently discharged from the establishment, and has since divulged the process by which these quids, which young Americans masticate with such velocity and apparent satisfaction, are made. The gum is made of certain parts of gum arabic, gum tragacanth, and a small quantity of resin and fat. The fat is not lard, that being too expensive, but is a substance expressed from the dead dogs, cats, dogs and other animals found on the commons of the city. This is not the worst of it. After the various ingredients are melted together in a huge kettle, a certain kind of alkali is put in for the purpose of whitening the gum. This alkali is the same that is used by dyers with indigo to give a deep and permanent blue to flannels.

THE Mendocino *Herald* tell of an enormous bird, an eagle, captured on a sheep ranch nine or ten miles above Ukiah City, on the road to Little Lake. It weighed sixty-eight pounds, and measured eleven feet from tip of one wing to that of the other—large enough to carry off a half grown sheep.

A Chicago paper thus sums up the results of Hancock's campaign against the Indians: "After marching eleven hundred cavalry a distance of eight hundred miles, with prodigious transportation trains, he succeeded in capturing one old Sioux with a broken leg, and an idiotic Cheyenne girl."

CLEVER.—A newspaper writer says: "Horace Greely is certainly too good for this world; and yet, if some theology be true, he would make mischief in the next; for he would clamor for the release of the Arch Fiend himself, and insist upon going his bail."

THE DOUBT.—If you doubt whether to kiss a pretty girl, give her the benefit of the doubt.

WHEN a pickpocket pulls at your watch, tell him plainly that you have no time to spare.

THE UNION PLATFORM.

The Union Party of the State of California, in Convention assembled, hereby present to the people of this State their platform and declaration of party principles:

Resolved, That in the present, as in the past, we are irreconcilably opposed to treason and to traitors, whether the same shall attempt to subvert our Union and control our Government by fraud and treachery from within, or force from without; and that upon the loyalty of the Nation, tried and proven, we rely to re-establish firmly and forever the bonds of our National Union.

Resolved, that in reconstructing the nation its foundations should be justice and its architecture duty, and we are unwilling that those so active to destroy, should be the chosen and preferred builders to erect it, and until it shall appear that in the States lately in rebellion loyal Committees exist capable and ready to administer justice and enforce law in accordance with the principles of a government of freemen and equality, it is our wish that the Government be administered and the law enforced by the loyal agents of the Federal Government.

Resolved, That in the reconstruction plan of the late Congress we recognize a policy as wise as it is magnanimous, and when the respective States late in rebellion shall bring themselves within its provisions, we will welcome them as sisters and receive them as equals in a reconstruction Union.

Resolved, That we deem the passage by the Legislature of a law establishing eight hours labor as a legal day's work, eminently just and proper.

Resolved, That the importation of Chinese or any other people of the Mongolian race into the Pacific States or Territories, is in every respect injurious and degrading to American labor, by forcing it into unjust and ruinous competition, and as evil that should be restricted by legislation and abated by such legal and constitutional means as are in our power.

Resolved, That the future primary elections of the Union Party in this State should be held under the provisions of the primary election laws and that such test should be prescribed and enforced as shall exclude all persons not members of the Union party.

Resolved, That we fully approve the amendment to the Constitution of the State, presented by the Legislature of 1866, and providing that the Legislature shall have no power to make an appropriation of money for any purpose whatever, for a period longer than two years; that the same should be accepted by the Legislature, adopted by the people and become part of the Constitution of the State.

THIS CELEBRATED INSTITUTE
has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

That leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts: Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the care of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhœa, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 978, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc.
